

## Industrial Solutions

Atkore provides a wide range of electrical product solutions and services for industrial markets, including protection, support, and management for a variety of applications. Atkore's steel conduit systems provide a protective pathway for electrical wiring in industrial facilities, helping to safeguard against damage and ensure electrical safety. Additionally, Atkore's wire and cable products are used to provide power and control signals to machines and equipment in industrial manufacturing processes. Overall, Atkore's products are integral to the efficient and safe operation of industrial manufacturing facilities.
