The Power of Leading Brands - All in One Place

Home to a leading family of brands, Atkore offers a comprehensive system to protect, manage, and route power and data cables effectively and safely. Our comprehesive range of UK manufactured product solutions have been designed to protect your critical power and data cables from the hazards caused by mechanical, electrical and environmental influences.

About Atkore

With over a century of powering and protecting the world around us, Atkore has a deep understanding of the high demands of the various industries and applications we serve. Our portfolio of industry-leading brands, coupled with our breadth of products and solutions, brings you exceptional value.

Turn-Key Solution

Our market leading brands of Atkore Unistrut, Marco, Flexicon and Vergokan provide customers with a one-stop-solution to manage and protect cables.

Atkore Advantages

- Customer-focused: Sales & technical guidance
- Accredited CPD training programmes
- Toolbox talks by our expert team
- Engineer site visits & measures
- Custom & pre-fabricated solutions
- Over a century of innovation & expertise

Commercial & Industrial

Empowering Professionals Through CPD

Our CPD-accredited courses are designed to support consultants, specifiers, engineers, and contractors operating in the commercial and industrial sectors.

Each course delivers technical insight, regulatory guidance, and practical knowledge to support effective cable management and specification.

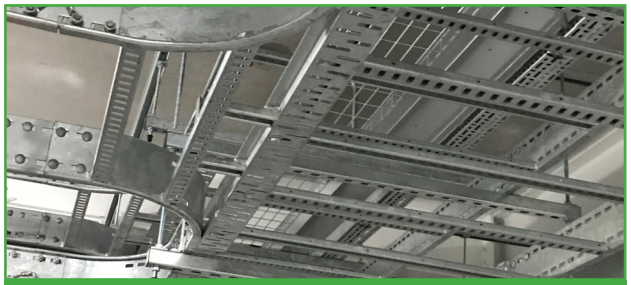

CPD CERTIFIED
The CPD Certification Service

Duration

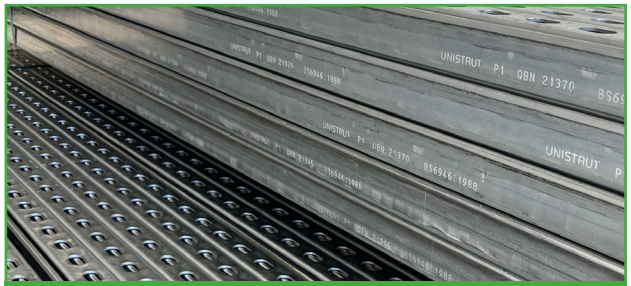

▲ 1-Hour including Q&A

Location

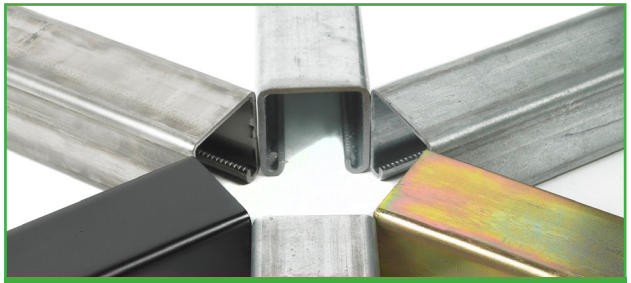

▲ Online or in person

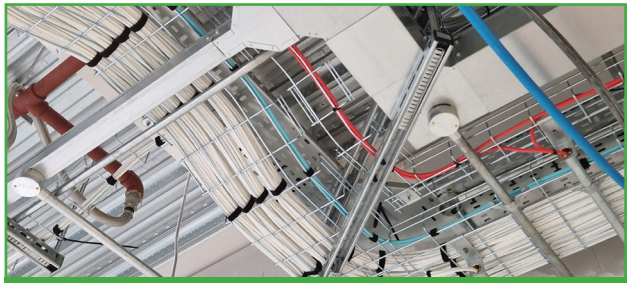

Technical Guide to Cable Management

Channel & Importance of Specifying Compliant Systems

Unistrut Overview

Cable Management: What Products to Use In Different Environments

Overview of uPVC Perimeter Trunking Systems

Understanding Low Smoke, Zero Halogen & Reaction to Fire Characteristics

Data Centre

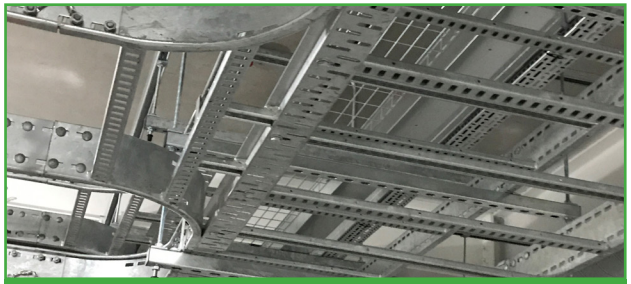

Empowering Professionals Through CPD

In large-scale environments like data centres housing critical cable systems, it is vital to specify with confidence. Atkore's CPD-accredited courses provide you with the knowledge to do so.

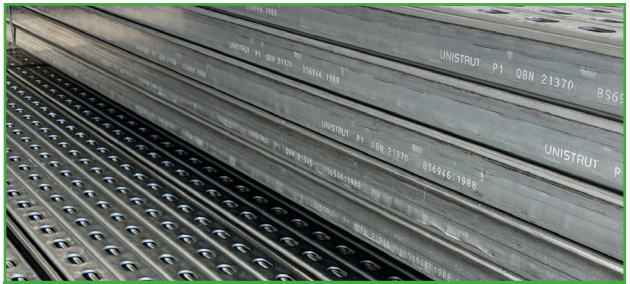

Tailored for specifiers, engineers, and contractors, our sessions cover key topics such as hazard mitigation, correct product selection, and compliance with industry standards.

CPD CERTIFIED
The CPD Certification Service

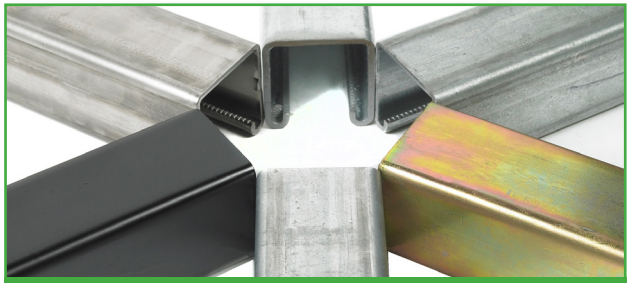

With a focus on practical application and technical clarity, Atkore's CPD offering helps professionals deliver safe, efficient, and future-ready cable management solutions suited to complex environments such as this.

Transportation

Empowering Professionals Through CPD

In safety-critical and performance-driven environments like rail rolling stock and rail infrastructure, correct specification is essential.

Atkore's CPD-accredited courses cover key topics such as product selection, environmental hazards, fire performance, and compliance with rail standards, offering the technical insight needed to specify with confidence.

Understanding Low Smoke, Zero Halogen & Reaction to Fire Characteristics

Cable Manamgement in Different Environments

Unistrut Overview

Energy

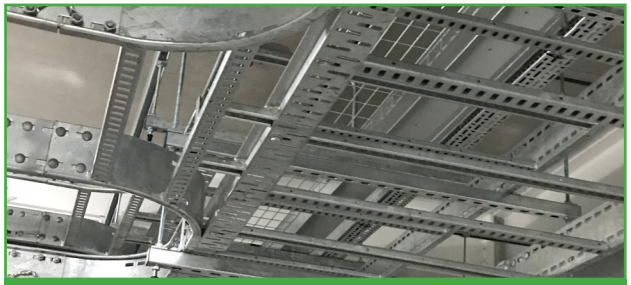

Empowering Professionals Through CPD

In high-risk, high-performance environments like nuclear, oil & gas, solar, and wind, precise specification is critical. Atkore's CPD-accredited courses are designed to equip engineers, specifiers, and project teams in the energy and renewables sector with the knowledge to make informed, compliant decisions.

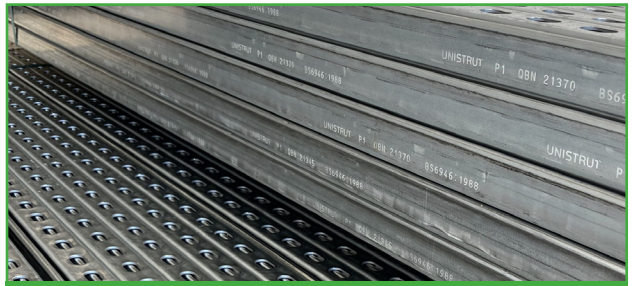

Our sessions cover key topics such as environmental and mechanical protection, fire safety, and selecting cable management systems that meet the demanding standards of each application.

CPD CERTIFIED
The CPD Certification Service

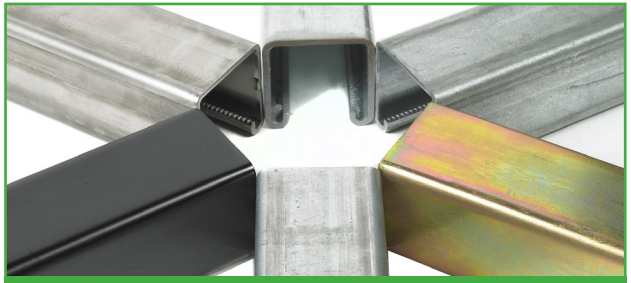

Whether you're working on offshore wind, solar farms, or nuclear power infrastructure, Atkore's CPD offering helps you specify with confidence and ensure long-term reliability in even the harshest conditions.
