## **PLASTIC PIPE and CONDUIT PRODUCTS SAFETY DATA SHEET (SDS) & CALIFORNIA PROP 65 STATEMENT**

To Whom It May Concern:

Safety Data Sheets (SDS) are not provided for Plastic Pipe and Conduit products because these products are considered an “article” under the OSHA Hazard Communication Standard (HSC), 29 CFR 1910.1200.

This standard has an exemption for articles. An article must be a manufactured item meeting the following criteria:

- During manufacture, the article must be formed to a specific shape or design
- The end-use functions are dependent in whole or in part on its shape or design and
- The product does not release or result in exposure to a hazardous chemical under normal conditions of use.

Products covered by this letter are not considered to contain hazardous chemicals based on evaluations made by our company under the OSHA Hazard Communication Standard, 29 CFR 1910.1200. For more information, please refer to the OSHA website (OSHA.gov).

Atkore has also reviewed its compliance obligations under California’s updated Proposition 65 Clear & Reasonable Warning Regulations and has concluded that foreseeable use of Plastic Pipe and Conduit products do not result in exposures of listed chemicals requiring a warning. However, if your intent is to further process the product, please contact us so we can address that issue. For more information, please refer to the CA Prop 65 warnings website (p65warnings.ca.gov).

Atkore Plastic Pipe may be branded Heritage Plastics, Allied Tube & Conduit, Cor-Tek or Queen City Plastics.

If you need further assistance, please contact Atkore’s Industry Affairs Team.
