

IS STAINLESS STEEL YOUR BEST CHOICE?

Power-Strut Defender®

For outdoor applications requiring a 30-year service life, stainless steel was the only viable solution...until now! Power-Strut® has developed a new high-performance coating called Power-Strut® Defender™!

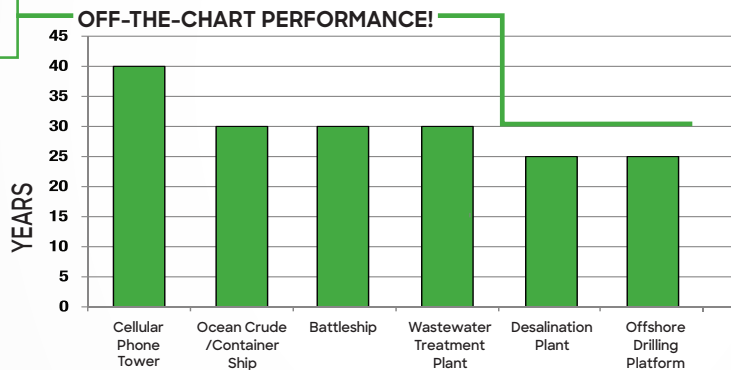

- Protects outdoor applications for up to 30-years
- 3X the service life of hot-dip galvanized¹
- Offers SIGNIFICANT savings over stainless steel

**POWER-STRUT®
DEFENDER™**

TYPICAL APPLICATION DESIGN LIFE VS. ANTICIPATED SERVICE LIFE

Typical application design life is sourced from a number of different publications and is not true for all applications. Reference your project-specific requirements and environment for a true performance estimate.

Why invest in stainless steel when you have a high performance alternative? **Power-Strut® Defender™**

Scan the QR code to view the game changing salt spray test results, self-healing properties and more!

¹Based on average ASTM B117 salt spray test results from an independent, accredited test laboratory.

²Typical application design life is sourced from a number of different publications and is not true for all applications. Reference your project-specific requirements and environment for a true performance estimate.
