

IS STAINLESS STEEL YOUR BEST CHOICE?

For outdoor applications requiring a 30-year service life, stainless steel was the only viable solution...until now! Unistrut has developed a new proprietary high-performance coating called Unistrut Defender!

- Protects outdoor applications for up to 30-years
- 3X the service life of hot-dip galvanized¹
- Offers SIGNIFICANT savings over stainless steel
- ONLY available from Unistrut

Why invest in stainless steel when you have a high performance alternative? **Unistrut Defender**

¹Based on average ASTM B117 salt spray test results from an independent, accredited test laboratory.

²Typical application design life is sourced from a number of different publications and is not true for all applications. Reference your project-specific requirements and environment for a true performance estimate.
